To reach the average age of an entry, add all ages together and divide by the number of dancers in the entry. After averaging age, DROP THE DECIMAL to come up with the competition age for the entry. For example: An entry who's average age is 10.7 will compete as age 10. All ages are as of January 1, 2019 for the entire 2018-2019 season.

The average age of each entry may not drop more than one age division below the age of the oldest dancer in the entry, regardless of the actual average age. Example: If an entry contains dancers ranging in age from 9-18, the entry may not compete younger than 13-15 (one division younger than the oldest dancer-18).
